

CALL FOR APPLICATIONS:

MCW-led Workforce Development for Improved Health

**LETTERS OF INTENT DUE
November 1, 2021 by 5:00 pm CST**

Supporting MCW-led collaborations to develop innovative programs and resources to advance continuing education for the health workforce at MCW and its affiliates, with a preference on opportunities targeting health equity

Jessica Herzog
Program Manager
(414) 955-4754
jherzog@mcw.edu

Overview

Application Checklist

- Review RFA and confirm eligibility

- Consult with AHW Program Manager to review proposed project scope and fit with RFA (highly encouraged)

- Complete all sections of the LOI (sample application provided to work on as a project team prior to submitting online)

- Share draft LOI with AHW Program Manager a minimum of two weeks prior to application deadline for feedback

- Submit LOI via online form prior to 5:00 pm CST on November 1, 2021**

- Complete key personnel signatures via AHW-initiated DocuSign process prior to 5:00 pm CST on November 4, 2021**

Note: **BOLD** items are required.

At the Advancing a Healthier Wisconsin Endowment (AHW), we are driven by a vision for a healthier Wisconsin.

As a statewide philanthropy, we seek to propel the most promising work and ideas to improve health and advance health equity in Wisconsin today, and for generations to come. We do that by *investing* in high-impact, promising work; *connecting* people, research, and academic medicine to break down silos and build up relationships across sectors and communities; and *influencing* how ideas and knowledge can become action to inform programs, policies, and practices.

We focus our work to advance three health priorities in Wisconsin: improving heart health, supporting healthy minds, and dismantling cancer. Alongside these issues, we aim to accelerate innovation, collaboration, and impact by responding to research- and community-identified needs. (Learn more about [our story](#), [how we work](#), and [our focus areas](#).)

Funding Summary

AHW's *Call for Applications: MCW-led Workforce Development for Improved Health* aims to support MCW-led collaborations to develop innovative programs and resources to advance continuing education for the health workforce at MCW and its affiliates, with a preference on opportunities targeting health equity. This opportunity is open to MCW-led collaborations led by full-time or full professional effort MCW School of Medicine faculty.

Funded Project Start Date

Call for Applications: MCW-led Workforce Development for Improved Health

Funding Details

AHW's *Call for Applications: MCW-led Workforce Development for Improved Health* aims to support MCW-led collaborations to develop innovative programs and resources to advance continuing education for the health workforce trained and employed by MCW and its affiliates, with a preference on opportunities targeting health equity. Project scopes should be feasible to complete within an 18- to 24-month period, without the option for a no-cost extension. Approximately \$1 million total is available to support approximately five meritorious MCW-led collaboration projects, with each project requesting up to \$200,000 maximum.

Description

In Wisconsin, and across the country, great strides have been made to improve health outcomes. However, growing workforce shortages, shifting work and community environments, evolving and emerging health challenges, and changing population demographics are evidence that there is more work to be done. AHW's *Call for Applications: MCW-led Workforce Development for Improved Health* aims to support MCW-led projects to develop innovative and sustainable programs, tools, and resources to advance Wisconsin's current and future health research, health care, and community health improvement workforces trained and employed by MCW and its affiliates.

To advance Wisconsin to be the healthiest state in the nation, the health workforce must have access to the resources necessary to continue to grow knowledge, build skills, and enhance efforts to collaboratively address Wisconsin's most challenging health issues and achieve health equity. While formal degree programs are essential, ongoing workforce development opportunities are also key to reinforce formal education, enhance skills and knowledge among existing professionals, provide initial training and workforce development to engage the next generation of leaders, and support growing team-based approaches across fields working to positively impact Wisconsin's health and advance health equity. Health equity is achieved when every person has the opportunity to "attain his or her full health potential" and no one is "disadvantaged from achieving this potential because of social position or other socially determined circumstances" (<https://www.cdc.gov/chronicdisease/healthequity/index.htm>).

AHW is committed to transforming the landscape of Wisconsin's workforce directly engaged in advancing and improving health by supporting efforts that develop and grow a health workforce that is poised to meet the diverse and evolving needs of Wisconsin residents now and for generations to come. We aim to propel promising work and ideas to develop and grow a health workforce that is increasingly more accessible, equipped, and representative of the diversity of the community being served by partnering for change with today's leaders across biomedical research, academic medicine, and community and public health.

Successful MCW-led applicant teams will support the health workforce trained and employed by MCW and its affiliates to address evolving and growing health challenges and reduce health disparities among Wisconsin residents and communities. Funding is available for project teams who have identified an MCW-based health workforce development need supported by appropriate data and evidence, and who propose an innovative enhancement to continuing professional development (CPD), continuing medical education (CME), or graduate medical education (GME). Successful projects will develop, adapt, and/or pilot the new or enhanced program with

the target health workforce during the project period and gather initial evaluation to demonstrate the potential positive impact on health and health equity.

AHW encourages projects in alignment with the AHW focus areas of improving heart health, supporting healthy minds, and dismantling cancer, however work outside of these focus areas will also be considered.

Additional Proposal Considerations

- All applications must clearly demonstrate how the proposed project will positively contribute to impacting health and health equity in Wisconsin in the long-term.
- Project aims must be distinct from prior or existing funded projects.
- This RFA intends to support funded applicants to pursue their projects in a compressed timeline to achieve their approved aims and objectives. No-cost extensions will not be allowed. It is not the intent of AHW funds to be used as bridge funding.

Eligibility

AHW is committed to supporting collaborative efforts that bring together multiple individuals with the necessary expertise, experience, and influence to address Wisconsin's leading health challenges and together advance health and health equity for all Wisconsin residents. All applications must be submitted by collaborative teams committed to carrying out the proposed project together.

MCW Principal Investigator

All applications must be led by an eligible MCW principal investigator (PI). The PI must be a full-time or full professional effort MCW faculty member with the rank of Assistant Professor, Associate Professor, or Professor, have a primary appointment in the School of Medicine, and is required to contribute a minimum of five percent FTE to the project for the full award period. The PI will be responsible for compliance with fiduciary and reporting requirements, maintaining regular communication with AHW, and ensuring that all project team members receive communications, notifications, and instructions from AHW.

MCW Co-Investigator

All applications must include at least one MCW Co-Investigator (Co-I) on the project team that is a full-time or full professional effort MCW faculty member with a primary appointment in the MCW School of Medicine and is required to contribute effort to the project for the full award period.

Additional Co-Is

All applicant teams are encouraged, as appropriate, to take advantage of the collaborative intent of this mechanism by engaging additional Co-Is beyond the requirement. Additional Co-Is are optional and are not subject to the same eligibility requirements as the MCW Co-I. Additional Co-Is may be faculty at MCW or external institutions outside of MCW and are not held to minimum FTE requirements.

Collaborators

Collaborators are optional but encouraged, as applicable, and are not subject to the same eligibility requirements as the MCW PI or MCW Co-I. Collaborators may be MCW faculty, staff, students, or experts outside of MCW. Collaborators typically have a smaller role in the project than the PI and any Co-Is (e.g., technical expertise, provide clinical samples), and may or may not receive salary support through AHW funding. Any individual and/or organization listed as a collaborator should be committed to the proposed project and ready to engage in the project based on their specified role, if funded.

Budget Requirements

AHW's investment in this funding opportunity will total approximately \$1 million to support approximately five meritorious MCW-led collaboration projects. The exact number of awards will depend on the merit of proposals received and the funding amount requested by successful applicants. Successful projects will demonstrate an appropriate budget and timeframe for their proposed scope of work. Project budget requests are limited to \$200,000 maximum and project durations are limited to 18- to 24-months and not to exceed 24 months maximum.

Letter of intent (LOI) applicants will provide a requested budget amount without a corresponding budget justification. Applicants invited to submit a full proposal will be required to provide a detailed budget with justification for all personnel and expenses.

- Project personnel salaries supported by AHW awards are subject to the applicable [NIH salary cap](#) at the time of the project start date.
- A **minimum of five percent FTE** is required of the MCW PI and the MCW Co-I is required to contribute effort to the project for the full award period.
- Award personnel may cost-share their effort. Cost-sharing may support any or all salary put forth, so long as minimum effort requirements are met. AHW funds may not be used to cost-share effort on any other work.
- AHW awards should not fund relatives/significant others of the MCW PI unless the PI can provide a written justification for how the relative's scientific or technical expertise is required to complete the award/project's aims. It is the responsibility of the PI to disclose the relationships and provide written justification at time of full proposal application and request of personnel changes and indicate whether or not an evaluative relationship exists between the PI and relative. MCW PIs are encouraged to refer to [MCW Policy HR.EE.110](#) for further detail.
- All personnel support must be justified and their specific project roles outlined in the budget justification included in the full proposal application. AHW funds cannot support general operational activities.

For information on financial compliance requirements for funded projects, please see the Funded Project Compliance Overview section of this RFA.

Supplanting Criteria

AHW was established as the result of a generous financial gift made by Blue Cross & Blue Shield United of Wisconsin to the people of Wisconsin, giving AHW the extraordinary responsibility to steward this financial gift on behalf of Wisconsin residents. As such, AHW adheres to requirements as defined in a March 28, 2000 Order of the Commissioner of Insurance which requires that AHW funds (the Funds) "may not be used to supplant funds or resources otherwise available." AHW, via MCW, must report annually on its determination that the Funds do not supplant other resources that may be available to accomplish the same purposes. [Supplanting criteria can be found on the AHW website.](#)

Prior to final funding recommendations and approval, AHW and/or its oversight body, the AHW Research and Education Advisory Committee (REAC), will assess whether other financial resources exist or are available for the project, including an assessment of whether the applicants have other financial resources available for the project. Applicants must certify that no financial resources will be supplanted and provide a complete listing of current funding sources for the project or similar other projects.

Leveraging

All applicants are highly encouraged to leverage additional funding support for their work. Leveraging additional support not only demonstrates additional commitment to a project, but also increases sustainability of efforts and can provide resources for activities that AHW cannot fund.

Leveraging can include departmental funds, cost-sharing of salary support, matching funding from other funders, business partners, or government (city, county, state, or federal) funds, as well as in-kind support.

Allowable Expenses & Funding Restrictions

Funds can only be used for direct project-specific expenses, which include salary and benefits for personnel directly involved in the project and direct expenses including supplies, equipment, travel, etc.

Funds may not be used for:

- Projects conducted outside of Wisconsin
- Indirect costs such as ongoing operating expenses for routine functions and principal programs
- Debt reduction
- Entertainment or alcoholic beverages
- Lobbying
- Reimbursement solely for patient care or clinical service delivery
- Publishing fees to benefit education or research in general
- Stipends
- Supplanting

View a complete list of [Allowable and Unallowable Costs](#) on the AHW website.

Application and Review Process

For the *Call for Applications: MCW-led Workforce Development for Improved Health*, AHW utilizes a two-stage application and review process beginning with submission of a Letter of Intent (LOI), with selected applicants invited to submit a full proposal.

Letter of Intent

All collaborative project teams that meet the applicant eligibility requirements should submit an LOI via the online form available on the AHW website by **5:00 pm CST on November 1, 2021**. Late LOIs will not be accepted.

Please use the following instructions to prepare and organize the LOI as a collaborative team for final submission via the online form by the deadline. Applicants must answer all required fields and follow the restrictions set within the online form. No paper or emailed applications will be considered and no attachments will be accepted.

When filling out the online form, you may save your progress and resume at a later time by checking 'Save my progress and resume later' in the upper right-hand corner of the form. If saving, please follow the system prompts to save and re-access the form. Only one applicant team member may begin and save the online form by creating a login (email address and password) that will allow that individual to return to saved work. We recommend you designate one individual to enter the completed application information online.

The LOI should contain the following materials:

1. Online LOI Application Form

The online LOI application form allows the project team to provide general project information and must be completed via the online form accessible on the AHW website. The online form content includes:

- Project title and goal statement
- Requested award amount and project duration
- MCW PI contact information and optional demographic information
- MCW Co-I, optional additional Co-I(s), and optional collaborator(s) contact information
- AHW five-year plan alignment information

A fillable template of the online LOI application form is available for download via the AHW website. The template will not be accepted as a final submission but is designed to be used by the applicant team to prepare their collaborative responses prior to completing and submitting the online form by the application deadline.

2. Narrative (attachment)

The Narrative is the applicant team's opportunity to describe their project in detail and will be attached in the indicated location within the online LOI application form. Responses to all sections of the Narrative are required, and applicants should limit responses to the maximum number of pages indicated for each section.

Organize the Narrative in the order specified below. Start each section with the appropriate section heading, be clear and concise, use lay friendly language as much as possible, and insert graphics, tables, and charts when applicable and within the allowable page limits.

- **Project Description** – *limit to 1 page maximum, 0.5" margins, 11pt font*
 - Describe the proposed health workforce development resource that will be created and/or piloted by the project team including the resource content and format, the gap that exists in knowledge or resources and how this project will fill that gap, and the primary targeted health workforce fields.
- **Methods & Strategies** – *limit to 1 page maximum, 0.5" margins, 11pt font*
 - Describe the proposed project methods, including specific project aims and activities to develop, adapt, and/or pilot the new or enhanced program, to enhance continuing education of the targeted health workforce and achieve the long-term desired impact on health and health equity.
- **Impact on the Health of Wisconsin** – *limit to 1 page maximum, 0.5" margins, 11pt font*
 - Explain why the proposed project is a priority to strengthen Wisconsin's health workforce, improve the health of the people of Wisconsin, and advance health equity, including applicable Wisconsin-based data.
- **Project Team** – *limit to 1 page maximum, 0.5" margins, 11pt font*
 - Describe the project team, including key roles and responsibilities, the expertise and influence of project team members, evidence of experience in adult education, the team's commitment and readiness to carry out the proposed project, and how the target workforce will be engaged in the project.

- **Citations – no page limit, 0.5” margins, 11pt font**
 - Include all references cited in the Narrative. Each reference should include the names of all authors, the article and journal title, book title, volume number, page numbers, and year of publication. Applicants should be especially careful to follow scholarly practices in providing citations for source materials used in the preparation of the application.

3. **Signatures**

Following successful submission of the completed LOI through the online form, signatures from key project personnel will be required via an AHW-initiated DocuSign process to indicate their awareness and support of the submitted application. The following individuals will receive an email with instructions to complete and submit their signature and all required signatures must be submitted by **5:00 pm on November 4, 2021** to complete the LOI submission and be eligible to advance to merit review:

- MCW PI and their respective MCW Department Chair or Center leadership
- MCW Co-I
- Any additional Co-Is

AHW will confirm receipt of the submission via email to the MCW PI.

Notification emails are anticipated to be sent to the MCW PI via email in mid-January 2022, following completion of the LOI review process. Selected applicants will be invited to submit a full proposal application.

Full Proposal Application

Selected applicants will be sent instructions and full proposal application materials with notification of their invitation to the full proposal application. Full proposal applications must be submitted via the online AHW Grant Management System by 5:00 pm CST on March 14, 2022. Late applications will not be accepted.

LOI and Full Proposal Review

At both the LOI and full proposal application stages, applications will undergo technical review by AHW staff for eligibility, content, and submission requirements, including:

- All fields are complete
- Adherence to guidelines and restrictions detailed in this RFA, the LOI and full proposal instructions, and the LOI and full proposal submission forms
- All eligibility criteria are met

Merit reviews will be conducted for all applications that pass technical review by an internal review body consisting of MCW faculty. The review process is competitive with the LOI review anticipated to be the most selective. Applicants are encouraged to take the assembly of the collaborative team and writing of the LOI seriously.

All applications will be reviewed using the following criteria:

Impact

The proposed project:

- Addresses an important health workforce need in Wisconsin and explains why it is a priority.
- Demonstrates potential impact on the health and health equity of Wisconsin based on anticipated project results.

Feasibility

The proposed project:

- Engages appropriate partners and stakeholders, including the impacted health workforce, with the necessary experience, influence, and expertise to accomplish project aims and demonstrates their commitment and readiness to successfully carry out the project.
- Demonstrates rigorous, high-quality, and appropriate methods to achieve the desired health impact.
- Describes a scope which can be completed within the requested project budget and duration.

Alignment

The proposed project:

- Is aligned with the RFA description and project and collaboration requirements.

Merit reviewers will provide scores and written comments for each proposal. The scoring system uses a nine-point scale based on the rating scale used by the National Institutes of Health. The nine-point rating scale is anchored according to the following descriptions:

1. Exceptional (exceptionally strong with essentially no weaknesses)	High
2. Outstanding (extremely strong with negligible weaknesses)	
3. Excellent (very strong with only some minor weaknesses)	Medium
4. Very Good (strong but with numerous minor weaknesses)	
5. Good (strong but with at least one moderate weakness)	
6. Satisfactory (some strengths but also some moderate weaknesses)	Low
7. Fair (some strengths but with at least one major weakness)	
8. Marginal (a few strengths and a few major weaknesses)	
9. Poor (very few strengths and numerous major weaknesses)	

• Minor Weakness: An easily addressable weakness that does not substantially lessen impact
• Moderate Weakness: A weakness that lessens impact
• Major Weakness: A weakness that severely lessens impact

Following merit review at each application stage, the REAC will review the recommendations from the merit reviewers and approve a slate of LOIs to invite to the full proposal application stage and the slate of full proposals to fund. AHW may request that applicants adjust their scope, budget, or timeline based on the outcome of the review process. If necessary, these applicants will be notified and asked to resubmit their adjusted application materials for further review. No negotiations or appeals will be accommodated. Final funding decisions will be advanced to the MCW Board of Trustees for approval.

Conflict of Interest

Each review process follows a Conflict of Interest policy. A conflict of interest is apparent whenever a reviewer's objectivity may be perceived as compromised by the nature of a personal or professional relationship or obligation to an applicant. Reviewers with a conflict of interest pertaining to a proposal's review and/or funding are self-identified and recused from review of that proposal.

Award Determination

Notification emails of conditional award determination are anticipated to be sent to the MCW PI in mid-May 2022, following completion of the full proposal review process.

Application Resources

AHW funding is highly competitive. Our goal is to support applicants through the application process to the best of our abilities, and we encourage applicants to contact AHW staff with questions throughout the application process.

Pre-Application AHW Consultation (highly encouraged)

For an efficient application process, applicants are highly encouraged to connect with the AHW program manager to discuss their proposed project scope and ensure it is in alignment with the funding opportunity. Applicants are encouraged to connect as early in the development of their LOI as possible. Contact Jessica Herzog at jherzog@mcw.edu to set up a time to discuss your proposal idea.

AHW Online Resources

AHW's website provides information, application resources, and answers to frequently asked questions related to each application and the AHW funding process. Visit the AHW website at www.ahwendowment.org.

A fillable template of the online LOI application form is available for download via the AHW website. The template will not be accepted as a final submission but is designed to be used by the applicant team to prepare their collaborative responses prior to completing and submitting the online form by the application deadline.

When filling out the online LOI application form, only one applicant team member may begin the application by creating a login (email address and password) that will allow that individual to return to saved work. We recommend that project teams use the LOI application template with their collaborators, and then designate one individual to enter the completed application information into the online form and submit by the deadline.

Funded Project Compliance Overview

The following information briefly highlights the processes and requirements for projects that are successfully awarded funding through AHW's *Call for Applications: MCW-led Workforce Development for Improved Health*.

Reporting Requirements

Progress Reporting

There are many means to communicate award progress between AHW staff and the funded PI including, but not limited to, direct communication, annual progress reports, and final reports. Funded projects will be required to submit progress reports annually throughout their project duration. Progress reports will be due no later than one month following the completion of each project year. A final progress report will be due no later than two months after the award end date. If the award end date aligns with the end of the final project year, the final report may be submitted in lieu of the final progress report. All progress reports must be submitted electronically via the [AHW Grant Management System](#). Failure to provide a progress report could result in termination of the project and/or ineligibility for future AHW funding.

AHW uses the information that the MCW PI and their project teams provide in progress reports to monitor progress and prepare public communication pieces that demonstrate the benefits of AHW funding to improve the

health of Wisconsin residents. As such, MCW PIs are advised to use lay-friendly language as much as possible when completing progress reports.

Funded MCW PIs are expected to be responsive to requests for information on continued progress, sustainability of the project and/or collaborative team, and other developments beyond the award period.

Additional Requirements

All projects should make accommodations to attend a grantee learning event held each project year during the award period. Learning events are organized by AHW to promote bidirectional learning among funded partners and provide an opportunity for networking.

Funded investigators may also be asked to contribute to the social return on investment of AHW by participating in supplementary engagement activities, which may include participation on AHW review panels, programs and initiatives, public presentations, networking events, peer-to-peer feedback sessions, trainings, and dissemination events, among others.

Financial Compliance

While awards funded through this funding opportunity are collaborative in nature, the MCW PI is solely responsible for ensuring compliance with fiduciary requirements throughout the life of the award. Upon funding approval, the MCW PI and any additional faculty and staff with administrative responsibility on the award should attend an orientation session with AHW staff to discuss financial compliance requirements.

It is important to note that AHW funds may not be used to supplant funds or resources that are available from other sources. If a PI receiving AHW funding is awarded a new grant that is for the same or similar research, they should notify AHW staff so that a supplanting review can be conducted. If it is determined that supplanting exists, the affected portion of the AHW funding will either be rescinded or reallocated, in accordance with MCW Corporate Policy BF.SP.060.

Financial Conditions

The amount awarded is the maximum funding available from AHW for this project and the project start and end dates indicate the official project period, unless otherwise approved by AHW. MCW reserves the right to reduce unspent funding and/or funding duration, if needed, to comply with state and/or federal law (including but not limited to law governing endowment fund management), or to address MCW financial constraints which negatively impact AHW. All AHW funds must be allocable within the project period.

Legal Compliance

Human and Animal Research Protection

AHW funding is contingent upon institutional approvals for the use of human subjects or laboratory animals. Awards funded by AHW must ensure that human and animal participants are protected during the collection of information from award participants and/or the publication or dissemination of award results.

Following award announcements, MCW IRB and/or IACUC staff must review all successful proposals that involve human subjects or laboratory animals for any purpose. MCW investigators may not independently make the determination whether an activity involves research; the MCW Institutional Review Board (IRB) will make the independent determination regarding human research subject involvement. MCW investigators must submit to the IRB for review prior to initiating the research regardless of whether their activities involve human subjects.

The MCW Institutional Animal Care and Use Committee (IACUC) will make determinations regarding animal use in research. Documentation of this regulatory review and documentation of IRB approval or exemption and IACUC protocols, if applicable, must be linked to the eBridge funding proposal. This process can be time consuming, and appropriate timing to secure approvals should be taken into consideration when developing the scope of work and timeline.

The MCW PI must lead this process and is highly encouraged to work with the IRB and/or IACUC office to confirm regulatory approval processes, as needed.

Health Insurance Portability and Accountability Act (HIPAA)

The HIPAA privacy rules are federal regulations protecting the confidentiality of information used in clinical practice, research, and operations of health care facilities. The privacy rules apply to the use or disclosure of protected health information for research purposes and require a number of actions and documentation. Funded projects must comply with all HIPAA requirements.

Proposal Protection/Intellectual Property

AHW's public oversight body, the MCW Consortium on Public and Community health (Consortium), operates in accordance with standards consistent with Wisconsin's Open Meetings and Open Records Laws. Documents that are generally considered by the Consortium in open public meetings become public record that may be subject to release. Prior to funding decisions being made, information contained in your proposal will not be shared outside the established RFA review process and the governing body. If your project is funded, information contained in the proposal may be subject to release. An Intellectual Property Agreement may be required for inventions, discoveries, or copyrightable material developed as a result of a project.

Lobbying

AHW funds may not be used for lobbying efforts. Successful applicants will ensure that descriptions of the intended use of all AHW funds abide by the nonlobbying requirement.

Lobbying includes communication with a legislator or agency official regarding a specific piece of legislation and your view on it, including any attempt to influence local, state, or federal legislation or administrative action.

Advocacy is allowable and includes taking part in efforts to create or effect change in policies or systems, and can take many forms including education, media, etc.

Marketing & Publicity Requirements

Award Announcement

All announcements related to the award of AHW funds are embargoed (i.e. not for dissemination outside of project partners) until the date set by AHW. In most cases, AHW will prepare its own press release to publicize funding awards and announce awards on its own dissemination channels, which may include the AHW website, electronic newsletter, and/or additional avenues such as social media.

Press Releases, Publications and/or Media Opportunities

News releases regarding the receipt of your AHW funding award are embargoed until the date set by AHW (see Award Announcement details above). Subsequent news releases about your project's activities do not need to adhere to an embargo or be reviewed by AHW. Exceptions to this guideline include announcements or press releases related to major events, information releases, or other announcements in which you seek AHW's collaboration on the announcement. Please contact your AHW program manager with any questions.

If you are contacted by a reporter during the period of your award, AHW encourages you to share the news and impact of your work! If reporters have specific questions about AHW or why your project was funded, please direct those inquiries to AHW Communications at sdeering@mcw.edu or (414) 955-4753.

In press releases, publications and/or other media opportunities, acknowledge AHW as the project funder with the following clause:

"This [project, program, conference, research, report, etc. (choose one)] is funded [in part or wholly (choose one)] by the Advancing a Healthier Wisconsin Endowment."

CLOSED

Sample Letter of Intent

Call for Applications: MCW-led Workforce Development for Improved Health

Eligible MCW-led collaborative teams are invited to submit the following Letter of Intent (LOI) application to apply for AHW's Call for Applications: MCW-led Workforce Development for Improved Health. The application must be completed and submitted using the online form available via the AHW website at ahwendowment.org. The online application form only supports Plain Text. No text effects such as bold, italics, underlining, bulleting, numbering, etc. will be captured in the form fields in the final submission. No paper or emailed applications will be considered. **The deadline for LOI submission is November 1, 2021 by 5:00 pm CST.** Late LOIs will not be accepted.

AHW does not discriminate against individuals on the basis of age, race, creed, religion, color, disability, marital status, sex, national origin, ancestry, sexual orientation, gender identity, arrest record, conviction record, membership in the national guard, state defense force or any other reserve component of the military forces of the United States or the State of Wisconsin or use or nonuse of lawful products off MCW's premises during nonworking hours.

Project Information

Project Title (required; maximum 100 characters, including spaces)

Goal Statement – Please provide a brief statement describing the goal of the proposed project, including the health workforce development resource to be created/piloted, the health workforce field(s) that the resource targets, and the resulting intended health impact. (required; maximum 400 characters, including spaces)

Award Budget

Total amount requested (required; in whole dollars \$ and not to exceed \$200,000 maximum):

Additional funds, if applicable: \$

Source of additional funds:

Start date: July 1, 2022

Duration of funding (required; in months and not to exceed 24 months maximum):

Project Team Information

MCW School of Medicine Principal Investigator (required) – Project teams must designate one (1) eligible MCW School of Medicine Principal Investigator (PI). PIs must be full-time or full professional effort MCW faculty with the rank of Assistant Professor, Associate Professor, or Professor with a primary appointment in the School of Medicine. See the RFA for MCW PI eligibility requirements. Collaboration among partners is required, but compliance with fiduciary and reporting requirements are the responsibility of the PI.

MCW PI Demographic Information		
To help AHW better understand our applicant pool, we'd like to learn more about our primary applicants. Please answer the following optional questions about the MCW PI. This information is for AHW's awareness only and will only be used in aggregate across AHW's applicants and funded partners.		
Gender Identity – How do you publicly self-identify?	Gender Identity – How do you publicly self-identify?	
a. Female b. Male c. Gender nonbinary/Genderqueer/Gender non-conforming d. Other, please describe: e. Decline to state	a. Transgender b. Not transgender (cisgender) c. Decline to state	
Race – How do you publicly self-identify? Please select all that apply.	Ethnicity – How do you publicly self-identify?	
a. Asian American/Pacific Islander/Asian b. Black/African American/African c. Latino/Latina/Latinx d. Native American/American Indian/Indigenous e. White/Caucasian/European f. Multi-racial/Multi-ethnic (two or more races or ethnicities) g. Different identity, please specify: h. Decline to state	a. Hispanic or Latino/Latina/Latinx b. Not Hispanic or Latino/Latina/Latinx c. Decline to state	
Sexual Orientation – How do you publicly self-identify?	Disability Status – How do you publicly self-identify?	
a. Heterosexual or straight b. Gay, lesbian, bisexual (or other sexual orientations within the LGBTQIA+ community) c. Different identity, please specify: d. Decline to state	a. I identify as a person with disability b. I do not identify as a person with a disability c. Decline to state	

Do you consider yourself to be a member of any of the following groups? Please select all that apply.

- a. A member of the LGBTQIA+ community
- b. A military veteran
- c. Active military
- d. A person with a disability or impairment

Are you early in your career? Early career is defined as completing terminal degree or end of post-graduate training within the past 10 years.

- a. Yes
- b. No
- c. Decline to state

MCW Co-Investigator (required) – Project team must designate at least one (1) eligible MCW Co-Investigator (Co-I) and are encouraged to designate additional Co-Is, as appropriate to ensure the necessary skill sets and expertise are engaged in the project team. The MCW Co-I must be full-time or full-professional effort MCW faculty. See full RFA for eligibility requirements. Please note that the online form is limited to five Co-Is total.

MCW Co-I Contact Information

Name (First Last, Suffix/Credentials) (required):

Preferred Name:

Pronouns:

Title (required):

Email (required):

Work Phone Number (XXX-XXX-XXXX) (required):

Full-professional effort status faculty

MCW Standing (required):

MCW Division:

Full-time faculty

Administrator Email (required):

MCW Department (required):

Department Chair Email (required):

Department Administrator Name (required):

Collaborator(s) (highly encouraged) – Please list additional key members of the project team to demonstrate that the project team brings together individuals with the necessary skill sets, experience, influence, and expertise to carry out the project. Any individual and/or organization listed as a collaborator should be committed to the proposed project and ready to engage in the project based on their specified role, if funded. Collaborators are not subject to MCW faculty eligibility requirements. Please note that the online form is limited to ten collaborators.

AHW Five-Year Plan Emphasis Areas

AHW Focus Areas — AHW recognizes that the health issues threatening Wisconsin's residents and communities are complex, interrelated, and multi-faceted. While AHW supports partners in responding to emerging health needs and opportunities, we aim to focus in three signature health areas:

- Improving Heart Health – Advancing cardiovascular health by seeking solutions across genetic and biologic factors, health behaviors and the socioeconomic conditions that lead to poor heart health outcomes
- Supporting Healthy Minds – Advancing brain and behavioral health by seeking solutions across brain conditions, diseases and injuries, as well as the emotions, behaviors and biology of mental wellness and substance use
- Dismantling Cancer – Advancing improvements in cancer by seeking solutions that improve understanding, prevention, and survival in the fight against cancer and its causes

Primary (required)

Please select **one (1)** primary area of emphasis for this project:

- Improving Heart Health
- Supporting Healthy Minds
- Dismantling Cancer
- Other, please describe:

Secondary

If applicable, select **all** additional focus area(s):

- Improving Heart Health
- Supporting Healthy Minds
- Dismantling Cancer
- Other, please describe:

AHW Determinants of Health — AHW recognizes that determinants of health are the contributing and risk factors that lead to increased risk for disease, disability, and death within each focus area. While there are many different definitions of determinants of health, AHW is guided by three broad categories of determinants:

- Biological and genetic factors – Including areas such as: genetic makeup (chromosomal, single-gene); physical body structure (age, weight); and bodily function (blood pressure, biochemical function)
- Health behaviors and health care factors – Including areas such as: diet, physical activity, alcohol/tobacco and other drug use, sexual activity; policies that impact individual and population health; and health services, such as access to and quality of care
- Social, economic and environmental factors – Including areas such as: availability of resources to meet daily needs, such as living wage and healthy foods; social supports and interactions; public safety; exposure to toxic substances and physical hazards; social norms and attitudes, such as discrimination; exposure to crime, violence and social disorder; quality schools; and housing, homes and neighborhoods

Primary (required)

Please select **one (1)** primary area of emphasis for this project:

- Biological and genetic factors
- Health behaviors and health care factors
- Social, economic and environmental factors

Secondary

If applicable, select **all** additional determinant(s):

- Biological and genetic factors
- Health behaviors and health care factors
- Social, economic and environmental factors

Health Equity — AHW is committed to advancing health equity across Wisconsin. Health equity is achieved when every person has the opportunity to "attain his or her full health potential" and no one is "disadvantaged from achieving this potential because of social position or other socially determined circumstances" (<https://www.cdc.gov/chronicdisease/healthequity/index.htm>).

Please select **all** applicable ways that your project aims to impact equity (**required**):

- Project aims, objectives, strategy or approach
- Project team participation
- Population the project aims to serve or directly impact
- Health issue, disease, or condition the project is focused on
- Other, please describe:

Narrative

Attach completed Narrative (PDF) here (**required**)

Signatures

Following successful submission of the completed LOI through the online form, signatures will be required via an AHW-initiated DocuSign process from the following individuals to indicate their awareness and support of the submitted application:

- MCW PI and their respective MCW Department Chair or Center leadership
- MCW Co-I
- Any additional Co-Is

Following submission and technical review, each of the individuals above will receive an email with instructions to complete and submit their signature. Please note that required signatures must be submitted by **5:00 pm on November 4, 2021** to complete the LOI submission and be eligible to advance to merit review.
