

SEED GRANTS

Community-led Funding Opportunity Overview

Supporting community-led partnerships to build a foundation to address Wisconsin's leading health challenges

FUNDING SUMMARY

AHW's Community-led Seed Grants funding opportunity supports community-MCW academic partnerships to design new strategies, test innovative ideas and foster greater collaboration to address Wisconsin's leading health challenges.

Seed Grant projects will allow applicants to prepare for larger endeavors, leading to long-term positive impact on health and health equity in Wisconsin's communities.

- Up to \$50,000 is available to support direct, project-specific expenses
- Awards may be up to 12 months in duration
- Projects must be led by an eligible Wisconsin-based 501c3 non-profit or governmental organization and an eligible MCW faculty member serving as the PI
- The MCW PI and at least one community partner representative must contribute effort to the project for the full award period

APPLICATION PROCESS

Please review the Call for Applications for more detail on the application components:

- Online application form
- Project narrative
- Implementation plan
- Budget workbook and justification
- Non-supplanting attestations
- Electronic signatures

PEER REVIEW PROCESS

Applicants will participate in a peer review process to assess proposals submitted by their fellow applicants. The peer review process includes:

- Proposals will be assessed on the potential for impact and feasibility to carry out the project
- One individual per applicant team will serve as a peer reviewer
- Completion of assigned peer reviews is required
