Bringing Dispatcher-Assisted CPR Statewide

How an AHW grant is creating a statewide network of 9-1-1 telecommunicators trained to provide critical, life-saving CPR instruction

When a recent call came into the Juneau County 9-1-1 Communications Center, it began in typical fashion: "9-1-1, what is the location of your emergency?" Only on this day, the protocol that followed was entirely new — and the result of an AHW investment aimed at creating a system that can save lives statewide ...

Conversations with Scientists Returns April 23 - May 16

Our free, public learning series returns for four nights in April and May! Join us for **“The Science of Mental Health: Journey Inside Your Brain”** and learn from Medical College of Wisconsin experts as they talk myths and stigma surrounding mental health and explore what *really* happens inside your brain in diseases like anxiety, depression, suicidality, and addiction.
